

Lesson

“SOLID ROCK”

Kidmania Discipleship Group Questions:

1. What does the foundation of a building do and why is it important?
 - A) Foundation is something that is strong enough to hold or support something that is built on top of it. The main purpose of the foundation is to hold the structure above it and keep it upright. It keeps people inside it safe.

2. The bible says that we are like a building, and we need to build our life on a good solid foundation. What does this mean?
 - A) We need to build our life on Jesus and His teachings so when we face any issues in our life, we can stand strong like a building that is built on a solid foundation stands strong.

3. What was the name of the most important stone in a building? And who is this stone in our life?
 - A) Cornerstone and Jesus

4. What is Jesus trying to teach us in the story of the 2 houses that were built, one on rock and one on sand?

A) If you build your life on rock (Jesus's teachings) and obeys his teachings, you are wise, but if you build your life on sand (Not Jesus's teachings) and do not obey his words, you are not wise.
